

AquaClean

Antimicrobial Additive for Water Soluble Heating Bath Fluids

Water Baths

AquaClean is active against bacteria, enveloped viruses, algae, fungi. Inhibits the precipitation of inorganic salts.

AquaClean shows a blue indicator color. Microbial contamination is indicated by decoloration of the fluid.

AquaClean does not contain aldehydes or azides.

Application:

- Add 5ml AquaClean to 1 liter of heating bath fluid.
- Renew fluid and additive every 4 weeks. In case the blue color of fluid has faded, renew earlier.

Compatible for use as an additive in water reservoirs inside cell culture incubators. (Its non-volatile active ingredients cannot invade cell-cultures via air.)

Classification according to EU-Regulation Nr. 1272/2008
H319 Causes serious eye irritation.
H315 Causes skin irritation.
H400 Very toxic to aquatic life.
H411 Toxic to aquatic life with long lasting effects.

Active ingredients:

Surfactants, quaternary ammonium compounds, complexing agents
Room temperature, protect from sunlight

Storage:

Materials compatibility:

Stainless steel & glass

Cat.#

WAK-AQ-250-50L 250 ml concentrate sufficient for 50 liters of fluid

L-01-134-02-0-01
